Title of Report: 2018 Proposed Baseline Budget
Statutory Citation: Business and Professions Code section 6140.1
Date of Report: November 15, 2017

The State Bar of California has submitted a 2018 Proposed Baseline Budget to the Legislature in compliance with Business and Professions Code section 6140.1.

As a result of a failed fee bill in 2017 the Supreme Court issued an order authorizing an interim special regulatory assessment in the amount of \$297 for that year. The historical licensing fee amount of \$315 has been static for 17 years. The reduced licensing fee resulted in the Bar needing to spend heavily from its reserves, as well as to restructure the way in which a number of its programs were funded and administered.

The 2018 statutorily approved licensing fee returns to \$315; in addition to the licensing fee itself, other fee bill provisions are particularly impactful on the State Bar's 2018 fiscal position. First, the bill directs the separation of the State Bar Sections into a new stand-alone entity effective January 1, 2018. Second, the bill redirects all of the Bar's affinity program revenue and 75 percent of its insurance program revenue to other entities in 2018.

The preliminary 2018 budget reflects these developments, which particularly impact the General Fund. 2018 General Fund expenditures, which are supported by mandatory licensing fees, total \$80.3 million, a figure which includes a \$1.2 million transfer to the General Fund in support of technology projects. The \$80.3 million compares to \$73.5 million in budgeted 2018 revenue. Of the \$5.6 million in budgeted reserve spending, \$4 million represents planned non-recurring expenditures; \$1.5 million in anticipated lump sum payments to staff pursuant to ongoing collective bargaining, and \$2.5 million for Case Management System initiatives. The General Fund budget also includes a modest augmentation for the Office of the Chief Trial Counsel, which has been prioritized for increased funding even given fiscal pressures facing the State Bar.

With respect to other (non-General) funds, the 2018 preliminary budget reflects \$75 million in revenue and \$89.7 million in expenditures. Planned reserve spending, primarily stemming from the draw-down of nearly \$10 million in Bank Settlement Fund revenue to be used to support legal service grants, accounts for the variance between revenue and expenditures outside of the General Fund. This \$10 million, in addition to increased IOLTA and Equal Access Fund allocations, will result in a meaningful increase in funding to support critical access to justice efforts throughout the state in 2018.

The preliminary budget anticipates that the State Bar will reduce its various fund balances over the course of 2018. Even with these reductions the Bar projects that it will remain in compliance with the 2016 Board of Trustees adopted reserve policy for all but one of its Funds as of December 31, 2018.

Operating Departments Budget Summary

Overview

Each operating department carries out the Bar's mission by advancing one of the four strategic goals: 1) ensuring a timely, fair, and appropriately resourced discipline and regulatory system; 2) informing and educating stakeholders about the Bar's responsibilities, initiatives, and accomplishments; 3) improving fiscal and operational management emphasizing integrity, transparency, and accountability; and 4) supporting access to justice and improvements in the justice system. As Table 1 demonstrates, the Office of the Chief Trial Counsel assumes the largest portion of the Bar's budget, followed by Legal Services and Admissions.

Department Budgets

Table 1 compares the adopted 2018 budget to 2017 actual expenditures by department, and outlines budget variance by dollar amount and percent change from the previous year.

* Since the cost of capital projects is budgeted when the acquisition takes place, depreciation on those capital assets is not budgeted. For loans to finance capital projects on the Howard Street and Los Angeles buildings, the interest expense is budgeted but the principal repayment portion is not an expense and therefore not budgeted; this represents a change from how the State Bar budgeted loan repayments in prior years.
