

OCTOBER 2026 FIRST-YEAR LAW STUDENTS' EXAM ADMITTANCE TICKET BULLETIN

Beginning September 29, 2026, the State Bar will notify applicants approved for the October 2026 First-Year Law Students’ Exam (FYLSX) that their Admittance Ticket is available in the [Applicant Portal](#). The Admittance Ticket serves three primary purposes: to confirm that the applicant has been approved to sit for the FYLSX; to indicate the applicant’s approved testing method (in-person at a Prometric test center or remote testing) at the time the ticket is issued; and to reflect the applicant’s name and other identifying information as recorded with the State Bar. Applicants are not required to print or present the Admittance Ticket to enter a test center or when logging into the exam remotely.

If the applicant does not receive the email on September 29, it may be because of one of the following: their eligibility status is pending, their request for testing accommodations is pending, or they have not completed the demographic section in the [Applicant Portal](#) (this section is mandatory to complete, but selecting "Decline to Answer" for any question is allowed). The Admittance Ticket will be available once these items are resolved.

If there is an error on the Admittance Ticket (e.g., a misspelled name or an inaccurate address), the applicant must notify the State Bar immediately through the [Applicant Portal](#), so a corrected ticket can be issued.

Applicants taking the October 2026 FYLSX should carefully review this Admittance Ticket Bulletin as it contains important information that is essential for exam preparation and to ensure full compliance with all policies and expectations. The Admittance Ticket Bulletin is also posted on the State Bar’s website and made available alongside the Admittance Ticket.

EXAM OVERVIEW

The October 2026 FYLSX will take place on Tuesday, October 27, 2026. The October 2026 exam will be administered primarily in person at Prometric test centers. For applicants approved by the State Bar to test in person at a Prometric test center, Prometric offers a network of standardized computer-based test centers. Testing at these locations is administered on Prometric-provided computers using a computer-based exam application. Applicants must schedule an appointment for a specific location. Availability is first-come, first-served. The start time for the exam will be based on the scheduled appointment time.

The deadline for out-of-state applicants and other applicants who do not have a test site near their residence to request remote testing was September 15. These requests will be evaluated on a case-by-case basis. Applicants testing remotely are required to meet the minimum system requirements of the Prometric remote exam application and take a mandatory practice exam.

Those testing in person at a test center will be provided with physical scratch paper, which will be destroyed after the exam. The contents of the scratch paper will not be graded. Applicants testing remotely on their own computer will have access to virtual scratch paper through the Prometric platform.

Handwriting the exam is allowed for in-person applicants who either selected this option in their approved exam application or those with certain approved testing accommodations. Handwriters will receive hardcopy booklets with the questions printed in them and a Scantron sheet to bubble in their answers.

EXAM FORMAT

The FYLSX consists of 100 multiple-choice questions that test the content areas of Contracts, Criminal Law, and Torts. Of the 100 questions on the exam, 25 will be new items that are pretested for operational use. Following the exam, the new exam questions will be statistically analyzed to ensure that they perform as intended. Any new items that do not meet evaluation criteria will be removed from scoring so that they do not negatively impact an applicant’s score. More information about the scope and grading of the FYLSX is published on the State Bar’s [webpage](#).

The multiple-choice questions are split into two sessions of 50 questions each. Applicants can answer the 50 multiple-choice questions in each session in any order they prefer. Once a session is complete, the applicant cannot return to that session.

Applicants may schedule their exam appointment in either the morning or the afternoon. Available start times will be between approximately 8:00 and 9:00 a.m. (Pacific Time) and 12:30 and 1:00 p.m. (Pacific Time). The exam will be administered as follows:

Session	Duration
Multiple-choice questions 1-50	90 minutes
Break	20 minutes
Multiple-choice questions 51-100	90 minutes

Applicants approved for extended time accommodations will have a modified testing schedule. The State Bar will email applicants granted extended time regarding their specific schedules.

TESTING ENVIRONMENT

Test Center

The State Bar works with Prometric to ensure that its test centers offer an appropriate testing environment. However, events, conditions, or actions of third parties may occur beyond their control.

Applicants should be prepared for noise, which may include sounds from others taking the exam, proctors performing their duties, people entering or exiting the room, noise from equipment inside and outside the test center, and other events in the same facility. Applicants are strongly encouraged to bring foam earplugs.

Applicants should also be prepared for temperature fluctuations. Exam rooms often increase in temperature as more applicants enter the room. Applicants are strongly encouraged to dress in layers that can be removed to stay comfortable in both cool and warm temperatures.

Visit Prometric’s On Exam Day [webpage](#) for more information about the test center experience.

Remote Exam

For applicants approved to take the FYLSX remotely, it is their responsibility to ensure that their equipment and testing environment meet the following requirements:

- Only laptops may be used for the exam. Mobile phones, tablets (iPad/Android), and desktop computers are not allowed. Microsoft Surface or similar devices may be used only in laptop mode.
- Only laptops with a single monitor can be used for the exam. Dual-monitor configurations are not allowed.
- The testing location must be indoors (walled), well-lit, and free from background noise and disruptions.
- No other individuals may be present in the room or enter the room for the duration of the exam.
- Your workstation and surrounding area must be free of pens, paper, electronic devices, etc. No content that could potentially provide an unfair advantage during your exam, including that posted on walls or within your immediate area, may be present during your exam session.
- You may have up to two pieces of tissue at the workstation, but must be inspected by the Proctor prior to the start of your exam.
- If taking an exam from a company office, windows and/or glass doors must be covered or contain frosted glass to eliminate distractions and prevent outside viewing.
- If testing from a personal space (home office, hotel, etc.), windows and/or glass doors should be covered to eliminate distractions.

It is also the responsibility of applicants testing remotely to ensure they have a stable internet connection. It can help to identify the place where WiFi is strongest and test there, and to not have others taking up internet bandwidth with video streaming services, social media, etc.

Find more information on Prometric’s Remote Exam Experience [webpage](#).

SCHEDULING AN EXAM APPOINTMENT

Beginning September 29, applicants approved to sit for the October 2026 FYLSX will receive a scheduling authorization email from the State Bar with information on scheduling their exam appointment with Prometric. Please do not attempt to schedule your appointment until at least 24 hours have passed from receipt of the scheduling authorization email.

The deadline to schedule your exam appointment for the October 27 exam is October 18. Applicants taking the exam remotely must schedule and complete a separate practice exam by October 18 using the same computer they will use on exam day.

Applicants can schedule their exam appointment online via Prometric's website using the link provided by the State Bar in its email to you. Applicants can also schedule an exam appointment by contacting the Prometric contact center at 888-842-9321, Monday through Friday between 8:00 a.m. and 5:00 p.m. (Eastern Time).

Applicants with approved testing accommodations no longer have to contact Prometric by phone to schedule their exam. Applicants with accommodations will also receive a scheduling authorization email and may schedule their exam online after receiving the email. If you experience difficulty scheduling your exam, and you have an approved testing accommodation, please contact the Prometric Testing Accommodations Unit at 800-967-1139, Monday through Friday between 8:00 a.m. and 5:00 p.m. (Eastern Time).

After your exam is scheduled, Prometric will send you a confirmation email with further details.

CANCELLATION OR RESCHEDULING

All exam schedule changes must be made directly with Prometric online or by phone. Your appointment will not be rescheduled or cancelled based on a voicemail message. Rescheduling is only permitted within the same exam administration. After October 18, rescheduling or canceling an exam appointment is not available.

EXAM ADMINISTRATION RULES AND POLICIES

This section outlines the rules and policies that applicants must adhere to. Review the following carefully to ensure compliance and avoid any issues on exam day. Applicants should also visit Prometric's Test Center Policies [webpage](#) and [rules document](#), as well as Prometric's Remote Exam Experience [webpage](#), to become familiar with Prometric's policies and procedures.

ATTENDANCE

Applicants must be on time for the exam. Applicants should plan to arrive at the test center for in-person testing or enter Prometric's ProProctor™ for remote testing at least 15 minutes before the scheduled appointment time to start the check-in process. Applicants who arrive at the test center or attempt to check in online 30 minutes or more after their scheduled appointment time will not be permitted to take the exam.

Applicants who are absent for any session of the exam will be considered as having not taken the exam, and their answers will not be graded. Applicants are required to make a good-faith effort to complete each session they attend. Failure to do so may result in receiving a conduct violation notice and being prevented from taking any remaining exam sessions.

Any applicant who exits the view of the webcam or exits the test center while the exam session is in progress will not be allowed to re-enter to complete the exam. Applicants may leave the view of the camera, or access their locker and leave the test center premises, after completing a session and during a scheduled break.

CONDUCT

Applicants are expected to demonstrate integrity, honor, and ethical behavior during all exams administered by the State Bar.

Applicants will be issued a conduct violation notice, pursuant to [Title 4, Division 1, Chapter 6 of the Rules of the State Bar](#) and the [Guidelines Governing the Interpretation and Application of Chapter 6 of the Admissions Rules](#), if they fail to comply with oral or written instructions during the exam or violate the exam rules. Conduct violation notices are often referred to as **Chapter 6 Notices**.

Applicants must also comply with the rules and procedures stated in this Admittance Ticket Bulletin, Prometric's Acceptance and Acknowledgement of Testing Conditions Form, and Prometric's Test Center Policies [webpage](#) and [rules document](#).

Additionally, conduct that compromises exam security or safety, or disrupts the administration of the exam, may result in a Chapter 6 Notice (for example, bringing prohibited items into the exam room, writing or typing anything after time is called, attempting to view another applicant's work, speaking during the exam, or acting unprofessionally toward other applicants, State Bar staff, proctors, or exam personnel).

Applicants who receive a Chapter 6 Notice may be [subject to sanctions](#), including dismissal from the test center or the remote exam session, referral to the Moral Character Determination unit, or receiving a score of zero for the session in which the Chapter 6 Notice was issued.

Smoking is not allowed during any exam session.

PERMITTED ITEMS

All applicants taking the exam in person at a Prometric test center or online remotely must bring a valid government-issued photo identification (such as a driver's license, state identification card, or passport) with them to each session of the exam.

Applicants must adhere to the specified list of permitted items below for both in-person testing at a Prometric test center and online remote exams. If any unauthorized items are brought into the exam room, whether intentionally or unintentionally, the proctor is obligated to notify Prometric and the State Bar.

Applicants found with any item not listed as permitted may have the item confiscated, may receive a [Chapter 6 Notice](#), receive a score of zero for that exam session, and face additional sanctions from the State Bar.

Revised: September 21, 2026

Applicants who wish to bring items into an exam room that are not listed below but are necessary to address a disability-related functional limitation must have submitted a Testing Accommodations Request Form in the [Applicant Portal](#) by the September 15 deadline. For emergency testing accommodations requests, applicants may submit a request by the October 16 deadline and receive formal approval of the accommodation. Permission to use specific items will not be granted as a matter of convenience or preference.

Test Center

Only the following items are allowed in the exam room without prior approval. All items are subject to inspection. Personal items not listed below as permitted in the exam room must be stored in a locker provided by Prometric. Personal items include, but are not limited to, cash, credit or debit cards, and keys. A locker key will be provided to each applicant. However, applicants are responsible for their own belongings, and the State Bar is not liable for any lost, stolen, or damaged items.

- Back support (one permitted; no cover)
- Chapstick and lip balm (no label or writing)
- Diabetes-related equipment (no food or drinks)
- Eye drops (no larger than 0.5 ounces; no label or writing)
- Eyeglasses (no cases or sunglasses)
- Face masks (no writing)
- Foam earplugs (not connected to one another)
- Footrest (one permitted)
- Government-issued photo identification (e.g., driver's license, state identification card, or passport)
- Hearing aids
- Inhalers
- Locker key (provided by Prometric)
- Menstrual products
- Orthopedic cushion or pillow (one permitted; no cover)
- Over-the-counter and prescription medications
- Pencils (provided by Prometric)
- Physical scratch paper (provided by Prometric)
- Religious headwear
- Silent analog watches, analog timers, and analog clocks (4" x 4" or smaller)
- Splints, braces, crutches, or a wheelchair
- TENS unit
- Unwrapped cough drops
- Water bottle (one unlabeled, clear bottle or cup with a lid, no larger than 40 oz; no other types of drinks or powder drink mixes are permitted)

Items that have been approved through the testing accommodations request process will also be permitted.

Remote Exam

Only the following items are allowed in the possession of or located near the applicant in the room where they are taking their remote exam without prior approval. All items are subject to inspection.

- Back support (one permitted; no cover)
- Chapstick and lip balm (no label or writing)
- Diabetes-related equipment (no food or drinks)
- Eye drops (no larger than 0.5 ounces; no label or writing)
- Eyeglasses (no cases or sunglasses)
- Footrest (one permitted)
- Government-issued photo identification (e.g., driver's license, state identification card, or passport)
- Hearing aids
- Inhalers
- Keyboard and mouse (wired or wireless)
- Menstrual products
- Orthopedic cushion or pillow (one permitted; no cover)
- Over-the-counter and prescription medications
- Religious headwear
- Splints, braces, crutches, or a wheelchair
- TENS unit
- Unwrapped cough drops
- Water bottle (one unlabeled, clear bottle or cup with a lid, no larger than 40 oz; no other types of drinks or powder drink mixes are permitted)

Items that have been approved through the testing accommodations request process will also be permitted.

Personal items not listed above must be stored outside of the room where the applicant is taking the exam. You may access these items during your scheduled break.

EXAM PROCEDURES

TEST CENTER

Please note that these procedures may be subject to change as necessary.

Prior to the exam, a Prometric test center employee will:

- Visually check the applicant's valid government-issued identification. Applicants wearing masks will need to lower or remove the mask and will be required to show the reverse side of the mask. If an applicant wears glasses, the glasses are subject to inspection. If the current government-issued photo identification does not include a signature, then a signature bearing secondary identification with a name that exactly matches the name provided to the State Bar during registration must be provided. Secondary identifications include some bank cards, credit cards, and some employee identifications.
- Require applicants to show their arms, ankles, and empty their pockets as a part of Prometric's security protocols. You will be scanned with a handheld metal detection device (with the exception of exempt individuals).
- Provide applicants with an assigned locker number and key for personal belongings not allowed in the testing room, if needed. Applicants will retain the key, and the locker area will remain under video surveillance while the center is open.
- Provide applicants with physical scratch paper and a pencil for taking notes.
- Assign each applicant a station with a desktop computer to complete the exam. The test center employee will then open the exam application and initiate the exam for the applicant.

During the exam:

- Monitoring of the test room will be performed using Digital Video Recording. Physical walkthroughs by proctors will also be conducted at least every 10 minutes.
- One 20-minute break is provided between each 90-minute session of the multiple-choice questions.
- If an applicant has a question during the exam session, the applicant should raise their hand and wait for a test center employee to acknowledge them.
- Applicants may not access their lockers during the exam session. Applicants may access lockers only during scheduled breaks for food, drink, or medication.

Scheduled breaks:

- When an applicant completes a session and is ready to go on a scheduled break, the applicant must raise their hand to alert the proctor.
- Applicants will be required to repeat the check-in process before returning to the exam after leaving the test room. Test center staff will record when each applicant enters and exits the test room.

Once the exam is complete:

- Applicants will be asked to return to the reception/administration area to complete the sign-out process. Prometric test center employees will:
 - Instruct applicants to place any hard copy exam material into a secure bin.
 - Allow applicants to go to their lockers to collect personal items.
 - Request the return of the locker key.

Applicants should visit Prometric's Test Center Policies [webpage](#) and [rules document](#) to become familiar with Prometric's policies and procedures.

REMOTE EXAM

Prometric provides a secure remote exam application, ProProctor™. Prometric has online tools that permit applicants to confirm computer compatibility and launch the exam at the appointed time. Once the applicant has scheduled the exam appointment with Prometric, the applicant will need to download and install the ProProctor™ application on their computer. Applicants will then be able to complete a system readiness check to ensure that their computer is ready to run the application on exam day.

Proctors will monitor the applicant throughout the testing process on exam day and provide real-time applicant support using the computer's webcam and microphone, as well as live chat.

Applicants must meet all technology and testing environment requirements below. Refunds will not be issued for applicants who experience computer equipment failure or internet connectivity issues, use a laptop computer that does not meet the minimum system requirements, or who cannot meet the test environment requirements.

Prior to the exam:

- Install and certify the required exam application on your laptop. If you are using an employer-provided or organization-provided laptop, ensure you have administrator privileges to install software.
- Ensure your laptop computer meets Prometric's minimum system requirements found on their Remote Exam Experience webpage.
- Ensure your laptop computer passes the Prometric [readiness check](#), including having a functional webcam and microphone. The webcam must be positioned above the laptop screen.
- Schedule and complete a practice exam by October 18. The practice exam is meant to ensure that an applicant's computer is compatible with the exam software and provides applicants the opportunity to become familiar with using the application. Applicants who do not complete the practice exam by the deadline will not be allowed to sit for the exam.

Before starting the exam:

- Prepare your device
 - Connect your laptop to the internet. To help ensure you have a successful experience for an online exam, identify the place in your home or other testing location where WiFi is strongest and test there; do not have other household occupants using internet bandwidth, such as with video streaming services, social media, etc.
 - Close all applications and web browsers before launching ProProctor™. Disable VPNs, firewalls, and antivirus software, or take any additional steps as instructed in Prometric’s [Knowledge Base](#).
 - Plug your laptop into a power source and make sure your battery is fully charged in case of power failure. Do not connect your laptop to a docking station.
- Testing environment requirements
 - Ensure there is no one else in the room.
 - Ensure that your testing space meets requirements (must be indoors (walled), well-lit, and free from background noise and disruptions). Your testing space must also be set up to eliminate distractions and prevent outside viewing. This may mean covering windows and non-frosted glass doors.
 - Remove all pens, paper, electronic devices, books, cell phones, and any additional monitors (second monitors are not permitted) from your workspace. Also, remove any content that could potentially provide an unfair advantage during your exam, including items posted on walls or within your immediate area.
 - Only two tissues are permitted at your workstation; these will be inspected by the proctor before your exam begins.
 - Cell phones, music, and TV must be turned off; disable any alarm clocks or timers that could emit noise during the exam.
- Use the bathroom, as you will not be able to leave the view of the webcam during the exam sessions. You may leave the webcam during the scheduled break time.

For the check-in and security scan on exam day:

- Log in to the exam in the ProProctor™ application by the scheduled time. It is recommended that applicants log in 15 minutes early to complete the check-in process.
- Be alone in the room; no other person may enter the room or communicate in any manner by any means with an applicant during the exam for any purpose.
- Your laptop computer must pass the Prometric [readiness check](#), including demonstrating that the laptop has a functional webcam and microphone.
- All other computer applications will be disabled and must remain so during the entire exam.
- Check-in and security process
 - Take a photo of a valid, government-issued photo ID as directed on-screen.
 - A Prometric staff member, via video chat, will guide applicants through the security process. Applicants must comply with any additional security checks as requested, including showing their sleeves, pockets (by turning pockets inside out), glasses, and behind their ears. Applicants may be required to remove large jewelry items or pull their hair back.
 - Complete a 360-degree scan of the testing environment, including the desk area, under the desk, the corners of the room, the walls, the chair, bookshelves, and a search of items on the applicant’s person and in their pockets. Applicants will have to lift their laptop and move it around to complete the scan. This will be the applicant’s last opportunity to put away all personal items. We recommend having a large bed sheet (without writing) or a similar item available in the event you are asked to cover any areas.
 - If an applicant’s internet connection disconnects or malfunctions during the check-in process, Prometric will provide instructions on how to reconnect and resume the exam.

During the exam:

- Your laptop computer’s webcam and microphone must remain on and unobstructed during the entirety of the exam.
- Sit at a desk or table (use of a bed, couch, or recliner is prohibited).
- Always remain in view of the webcam except when directed by your proctor to perform a specific action or after you notify your proctor that you are beginning a scheduled break. A security scan will be required before resuming the exam after any break.
- Do not access any personal items, electronic devices, or unauthorized materials during the exam session if they are not permitted in the exam room.
- No physical scratch paper is permitted. Applicants must use only the virtual scratch paper provided in the Prometric application.
- The workspace must be clean and uncluttered.

Scheduled breaks:

- A scheduled break will begin automatically when an exam session ends—either because time runs out or the applicant chooses to end the session.
- The proctor will use the chat feature to provide instructions, including what to do when returning from the break.
- If you return before your break timer ends, you must notify the proctor via chat. The proctor will then complete any required check-in or security procedures before starting your next exam session.
- If you return after your break timer ends and the next session has already started, you must still notify the proctor via chat to complete the necessary check-in and security steps. The exam timer will not be paused for those who return from their break late, so it is important that applicants return before their break ends and notify their proctor immediately.
- Failure to inform the proctor when you return from break may result in the next session starting without a pause, and you may be required to stop mid-session for check-in.
- During scheduled breaks, you may access personal items, electronic devices, or unauthorized materials that are not permitted in the exam room during the exam session. However, to avoid inadvertently having those items present when the next exam session starts, applicants are strongly encouraged to leave such items outside the exam room, access them only outside the exam room during the scheduled break, and leave them outside the exam room when returning to the exam session.

To avoid a possible violation, be sure to follow these best practices:

- Ensure that you have privacy for the entire exam and do not interact with other people or receive any outside assistance.
- Remain focused on the exam, without looking at prohibited items such as phones, textbooks, or notes.
- Do not read exam questions out loud.
- Do not use your mobile phone or any electronic device at any time.
- Do not get up from your computer for any reason until your exam is complete, except during the scheduled break time.
- Do not use any Bluetooth items.

Technical issues:

- Your proctor and Prometric’s automated tools are there to provide support while ensuring the security and integrity of the exam. Following these requirements and recommendations carefully will help you avoid violations and ensure your exam proceeds smoothly.
- If you are unable to launch a remote exam by your scheduled start time, you will have up to two hours to resolve the issue. After two hours, you will be unable to launch the exam and will be considered a no-show. You should contact the State Bar through the [Applicant Portal](#) immediately.
- If your internet connection disconnects or malfunctions for any reason during the exam, you will be able to restart the application and get back into the exam. You can disconnect and reconnect up to three times, and you will have up to 30 minutes to reconnect after each disconnection. After three reconnections, or after 30 minutes attempting to reconnect, you will be unable to reenter the exam, and you should contact the State Bar through the [Applicant Portal](#) immediately.
- For other technical issues, visit [Prometric support](#) to chat with an expert.

Applicants are strongly encouraged to visit Prometric’s Remote Exam Experience [webpage](#) to become familiar with Prometric’s policies and procedures.

Summary of Minimum System Requirements for ProProctor™ Application

You must use a laptop computer that meets the following minimum system requirements in order to run Prometric’s ProProctor™ application. Before exam day, complete Prometric’s [System Requirements Readiness Check](#).

Device

- Only laptops may be used for the exam. Mobile phones, tablets (iPad/Android), and desktop computers are not allowed. Microsoft Surface or similar devices may be used only in laptop mode.
- Plug your laptop directly into a power source. Do not use a docking station.
- If you are using an employer-owned or organization-owned laptop, you must have administrator rights to install and configure ProProctor™. Firewalls or security settings may prevent the application from working properly. For assistance with preparing your device, visit Prometric’s [Knowledge Base](#).

Internet Connection

- Minimum speed: 5.0 Mbps download / 0.5 Mbps upload.
- Use the strongest possible connection. An Ethernet cable is strongly recommended. If using Wi-Fi, position yourself close to the router.
- Avoid interruptions. Do not share bandwidth during the exam (e.g., others streaming video or gaming). Weak or unstable internet can cause ProProctor™ to disconnect.

Hardware

- Monitors: Only one monitor may be used. You may connect to a single external monitor, but in this case, you must close your laptop. Note that if you close your laptop, you cannot use its built-in webcam, keyboard, or trackpad; meaning you will be required to use a USB plug-in webcam, keyboard, and mouse. Wall-mounted or TV monitors are not permitted.
- Screen resolution: Minimum 1024 x 768.
- Webcam: A working webcam is required. If using an external monitor with a closed laptop, you must use a USB plug-in webcam. The webcam must be positioned above the laptop screen. It is not permitted to place it below, beside, or in any alternative location. Keyboard-embedded webcams are not permitted. You will have to lift your laptop or webcam and move it around, so ensure you can do this easily.
- Speakers and Microphone: Both must be functional and enabled. Adjust the speaker volume before launching ProProctor™, as you will not be able to change it once the exam begins.

Operating System

ProProctor™ supports the following operating systems:

- Windows 8.1 or higher
- macOS Monterey (12.x)
- macOS Ventura (13.3 and higher)
- macOS Sonoma (14.x)
- macOS Sequoia (15.x)

Additional Information

- VPNs, firewalls, and antivirus software can block ProProctor™. Applicants are strongly encouraged to disable them before launching the exam. Prometric’s [Knowledge Base article on VPNs](#) provides further guidance on how to do this.

ADDITIONAL INFORMATION

ADDRESS CHANGE

Applicants whose mailing or email address changes after filing their applications should update their admissions file with the new address through the Applicant Portal.

CONTACT

Applicants with questions about their Prometric exam appointment, the ProProctor™ application, or Prometric's procedures should contact Prometric using the options available on their [webpage](#). Applicants can also contact the Prometric contact center at (888) 842-9321 Monday through Friday between 8:00 a.m. and 5:00 p.m. (Eastern Time).

Applicants with questions about their exam application status or other admission requirements, please submit a general request through the [Applicant Portal](#) or contact the State Bar's Contact Center at 800-843-9053 (for applicants located in California) or 415-538-2000 (for out-of-state applicants).

RESULTS

Results from the October 2026 FYLSX will be available to applicants through the Applicant Portal no later than **December 11, 2026, at 4:00 p.m. (Pacific Time)**. Communication regarding exam results will be emailed to an applicant's address on file.

Learn more about the grading and scoring of the FYLSX on the State Bar's webpage.
