

# State Bar Metrics

2022

The State Bar of California

# Introduction

The State Bar's performance metrics measure critical performance objectives, including operational efficiency, customer responsiveness, and fiscal accountability.

The majority of metrics have performance targets; metrics without targets are reported for tracking purposes only. Most metrics are tracked monthly, quarterly, semiannually, or annually while others are one-time in nature (for example, a specific implementation plan).

In 2022, the State Bar analyzed 68 metrics, 49 of which had performance targets. Among this subset of metrics, 27 (55 percent) met their performance targets at all time periods analyzed during 2022. Metrics that did not meet their targets at least once during 2022 are accompanied by an explanation.

The full list of metrics covered in this report is provided in Appendix A.

## Office of Admissions

Conduct initial review of 80% of Moral Character applications within 90 days of receipt

A-1

Reduce exam costs by 5%

A-2

Exam costs increased by 30 percent in 2022 compared with 2021. With the return to in-person testing in February 2022, the Admissions Office incurred costs associated with facility rentals, exam proctors, COVID-19 precautions, and the hiring of a consulting organization that provided exam administration services such as proctor recruitment and site selection.

## Office of Admissions (continued)

Reduce time to grade February bar exam  
from 11 weeks to 9 weeks

A-3A

The February 2022 bar exam's grading time was 10 weeks, no change from 2021. This reflects the continued lengthy process of issuing exam violations and allowing applicants sufficient time to respond prior to releasing exam results.

Reduce time to grade the July bar exam from  
16 weeks to 14 weeks

A-3B

The July 2022 bar exam's grading time was 15 weeks, no change from 2021. This reflects the continued lengthy process of issuing exam violations and allowing applicants sufficient time to respond prior to releasing exam results.

## Office of Admissions (continued)

Complete processing of 75% of applications for the Provisional Licensure Program within two weeks of receipt of a complete application

A-4

The Office of Admissions met this metrics target in three out of four quarters. Staff has since developed a process to ensure timely processing.

## Board Support, Judicial Nominees Evaluation Commission, and Appointments

100% of Judicial Nominees Evaluation candidates evaluated within 90 days

## Client Security Fund

### Number of cases resolved

CSF-1

Time Period	Number
2020	1,319
2021	894
2022	917

### Decrease time to payout after final discipline by 5%

CSF-2

In 2022, the Client Security Fund (CSF) underwent significant changes that impacted its operations and case processing including the retirements of its longtime director and an experienced senior administrative assistant. The hiring of two new attorneys required orientation and training throughout the remainder of the year. Within a few weeks of these new hires, one of the remaining experienced CSF attorneys was promoted to managing attorney for both CSF and Mandatory Fee Arbitration, which necessitated splitting their time between the two offices.

## Office of Strategic Communications & Stakeholder Engagement

Number of social media followers

SCSE-1

Time Period	Number
Q1 2022	49,055
Q2 2022	50,339
Q3 2022	52,114
Q4 2022	53,256

Expand communications engagement with Spanish-speaking audiences through a campaign involving paid social media placements and radio public service announcements.

SCSE-2

This project's launch was delayed due to understaffing (which delayed researching vendors and inviting bids) and a limited budget (which led to two of three invited vendors withdrawing their bids). However, a Spanish-language outreach agency was procured in Q4 2022 and the campaign launched in Q2 2023.

## Office of Finance

Provide fiscal year-to-date budget-actual analysis on a monthly basis to enable efficient financial management by client division or office and the executive director within 30 days of the close of the month

F-1

The target for this metric was achieved in 10 out of 12 months. However, for two months during the year, the Office of Finance had to prioritize activities related to year-end financial adjustments.

Pay 90% of vendor invoices within 30 days of receipt by the State Bar offices

F-2

## Office of Finance (continued)

Complete monthly adjusting journal entries and close the books timely and accurately within 20 business days of the end of the month

F-3

The target for this metric was achieved in 8 out of 12 months. However, in the remaining four months, the Office of Finance had to prioritize other activities such as year-end financial adjustments and responding to audits conducted by the California State Auditor.

## Office of General Services

Process 90% of procurement requisitions with  
100% accuracy within three days

GS-1

Process 85% of all facilities requests (not  
requiring parts or equipment ordering)  
within three business days or less

GS-2

## Office of Human Resources

Conduct 80% of performance evaluations by anniversary date or, for executives, the due date

HR-1

Although the target was not met for this metric throughout 2022, that year's results reflect a significant improvement compared with 2021 when quarterly metrics ranged from 37 to 49 percent. Office of Human Resources (HR) continues to work with office directors, managers and supervisors to facilitate the timely completion of performance evaluations (PEs) including sending monthly status reports showing PEs due within 90 days, as well as PEs that are overdue. HR also provides direct support and guidance to managers and supervisors in writing PEs, when necessary.

## Office of Human Resources (continued)

Reduce average time to hire to  
60 days or less

HR-2

HR processed 143 hires in 2022 and the average time to hire was over 60 days in all quarters. Time-to-hire impacted the recruitment of hard-to-fill positions in the Office of Information Technology, Office of General Counsel, and Office of Human Resources that required specific and highly sought-after skills. High priority activities within the Office of Admissions prevented staff from engaging in timely candidate assessment and interviews. Finally, several candidates rejected their offers.

Stay interviews are conducted for 100%  
of new hires within 90 days of hire

HR-3

A total of 125 hires were eligible for stay interviews in 2022. Reasons for delays in conducting stay interviews within 90 days of hire included a staff departure prior to 90 days, staff scheduling conflicts, and an unusually high number of hires in September 2022 (21) whose December scheduled interviews were delayed due to year-end staff activities that took priority.

## Office of Human Resources (continued)

Average number of days to fill OCTC attorney positions

HR-4

Average number of days to fill OCTC investigator positions

HR-5

90% of participants report a high level of overall satisfaction with the T&D program

HR-6

In 2022 10 staff members participated in the Training & Development (T&D) program, and 9 filled out a satisfaction survey. Due to the small number of surveys, this metric's value was impacted by the few staff members who gave neutral ratings on survey questions about assignment length (they indicated it was not long enough), new skills attained, and higher levels of engagement in result of the T&D assignment.

## Office of Human Resources (continued)

Percent of internal hires

HR-7

Turnover rate among OCTC attorneys

HR-8

Turnover rate among OCTC investigators

HR-9

## Office of Information Technology (IT)

90% of stakeholders report a high level of overall satisfaction with new technology deployments

Process 85% of all IT service requests (not requiring parts or equipment ordering or software development) within five business days or less

## Office of Information Technology (continued)

Complete 90% of planned major IT  
projects on schedule and on budget

Given the small number of major projects counted for this metric and the fact that the average across all quarters is over 90 percent, this metric was considered to have met its target.

## Lawyer Assistance Program (LAP)

Increase intakes by 10%

LAP-1

Respond to 100% of requests for presentations within two business days

LAP-2

In Q1 2022, the Lawyer Assistance Program (LAP) received 21 requests, and staff responded to 20 of them within two business days.

## Lawyer Assistance Program (continued)

Complete 10 law school presentations and 20 bar association or law firm presentations in 2022

LAP-3

80% of survey participants report that the LAP addressed their goals

LAP-4A

80% of survey participants report they are satisfied with their LAP experience

LAP-4B

Track successful completion rates for Alternative Discipline Program cases

LAP-5

## Office of Chief Trial Counsel (OCTC)

Number of P-1 cases  
in backlog for respondents  
with active law licenses

OCTC-1

Percent of P2 cases resolved  
within 120 days

OCTC-2

## Office of Chief Trial Counsel (continued)

Maintain an annual caseload  
clearance rate of at least 100%

OCTC-3

Note: This metric is calculated using a 12-month rolling average to smooth out month-to-month fluctuations in caseload clearance rates.

With the exception of two months, OCTC was unable to maintain an annual caseload clearance rate of 100 percent for case types reported in the Annual Discipline Report (ADR). There were personnel changes and attrition, specifically among investigators toward the end of 2021 and the start of 2022 which further impacted the caseload clearance rates. The personnel and attrition changes resulted in a considerable number of case reassignments and a reduction in experience at various levels, including supervisory attorneys. OCTC's staffing has since returned to its usual attrition rate, and the leadership team is exploring potential modifications to its case processing methods to improve the caseload clearance rate and achieve the 100 percent target.

## Office of Chief Trial Counsel (continued)

### Case disposition times

OCTC-4A & OCTC-4B

Note: This metric is measured by number of days and describes cases that are reported in the Annual Discipline Report.

### Maintain current level of Complaint Review Unit (CRU) reopens for reasons other than new evidence

OCTC-5A

### Percent of Walker Petitions denied

OCTC-5B

Note: The Supreme Court acted on 56 Walker petitions in 2022, substantially fewer than previous years. Only one petition was granted, similar to previous years. This metric's target is considered "met" due to the small number of Walker petitions reviewed in 2022.

## Office of Chief Trial Counsel (continued)

Decrease the number of random-audit  
reopens for substantive reasons

OCTC-5C

Note: The most recent data available for this metric is for the time period March 2021 through August 2021. The percentage represents the number of cases OCTC reopened.

Case inventory trends

OCTC-6

Note: This chart describes cases that are reported in the Annual Discipline Report.

## Office of Chief Trial Counsel (continued)

Percent of respondents that retain representation

OCTC-7

## Recidivism Rates

Percent of attorneys investigated  
after receiving a resource letter, warning letter,  
or being disciplined

RR-1

■ Investigated within one year

■ Investigated within three years

### Received Resource Letter

### Received Warning Letter

### Initial Discipline: Public or Private Reprimand

### Initial Discipline: Probation

## Recidivism Rates

Percent of attorneys disciplined  
after receiving a resource letter, warning letter,  
or being disciplined

RR-1

- Disciplined within one year
- Disciplined within three years

### Received Resource Letter

### Received Warning Letter

### Initial Discipline: Public or Private Reprimand

### Initial Discipline: Probation

## Office of Access & Inclusion

Closely monitor Interest on Lawyers' Trust Accounts (IOLTA) rates, including continued strategy around Leadership Bank program, to stabilize funding

OAI-1

Provide commissioners with meeting materials five to seven days in advance at least 80% of the time

OAI-2

## Office of Access & Inclusion (continued)

Issue 80% of monitoring visit and fiscal visit findings within 60 days

OAI-3

Because the average across the two time periods exceeds the target and the number of monitoring visit memos issued from January 1 to June 30 was small (4), this metric's target was considered met for both time periods.

## Office of General Counsel (OGC)

Complete and resolve an average of 60  
Complaint Review Unit (CRU) cases per month

OGC-1

Note: For 2022, CRU resolved an average of 74 requests across all 12 months; under this definition, the metric's target was achieved. However, CRU did not always resolve at least 60 requests per month due to reduced staffing, which resulted from vacancies within OGC as well as volume of other work assigned to CRU staff.

## Office of Professional Competence (OPC)

80% of callers report a high level of overall satisfaction with the Ethics Hotline experience

OPC-1

Because the average across the four time periods exceeds the target and the number of callers that submitted a satisfaction survey in Q1 was small (5), this metric was considered met for all time periods.

## Office of Professional Competence (continued)

Voluntary e-learning courses: 85% of participants report these courses met their expectations

OPC-2A

In 2021 a voluntary e-learning course called “Disrupting Implicit Bias” was available to all licensees on a complimentary basis. Feedback from e-learning participants points to course technical issues (lag, freezing, audio sync issues) and the inability of a learner to progress through the course at their own pace. Course settings that require the narrative audio to read all onscreen text in its entirety before allowing the learner to progress to the next screen are part of e-learning industry standards for compliance with the Americans with Disabilities Act. The Office of Professional Competence will discuss this issue with the e-learning vendor to determine if there are options to implement changes that would balance the need for ADA compliance while also providing more flexibility for the learner to progress at their own pace in the development of any future courses.

## Office of Professional Competence (continued)

Mandatory e-learning courses: 70% of participants report these courses met their expectations

OPC-2B

80% of all annual Lawyer Referral Service recertification applications processed within 60 days of receipt of a completed submission

OPC-3

## Office of Professional Competence (continued)

90% of requests for arbitration of attorney-client fee disputes are served on the responding attorney within 10 business days of receipt of a completed submission

OPC-4

Of the 100 cases where a request was served on the respondent party, 66 requests met the 10 business day target.

In 2022, 111 cases were filed, compared to 61 cases in 2021. The nearly doubling of caseload was largely due to the Bar Association of San Francisco and the San Mateo County Bar Association's discontinuation of accepting new MFA cases at the beginning of 2022. The cases filed in 2022 included more complex matters than usual such as cases with multiple parties with counsel and/or high amounts in dispute with 14 matters involving amounts in dispute of \$100,000 or more, ranging from \$100,000 to \$15,000,000. These cases require more staff time to administer and the MFA office experienced staffing challenges for most of 2022, when core staff consisted of just one attorney and one senior program analyst with support from two staff members of the Office of Professional Competence (OPC) as their workload permitted. Effective July 1, 2022, the Mandatory Fee Arbitration (MFA) Program was relocated from the OPC to the Office of Professional Support & Client Protection (PSCP). A Program Assistant II was hired in November 2022 to assist both the MFA and Client Security Fund programs. Of the 111 cases filed in 2022, a total of 100 requests for arbitration were served on the respondent party and the average time to serve the request was 8.55 days.

## Office of Professional Competence (continued)

Process 75% of MCLE applications  
within 30 days of receipt

OPC-5

Responsibility for this program was transferred to the Office of Professional Competence in 2022. This metric was not met primarily due to staffing shortages and the need to train new staff.

## Office of Probation

Track successful completion rates and reasons for noncompletion

P-1

Track rates of successful satisfaction of restitution orders

P-2

80% of courtesy reminder letters are provided to respondents within three weeks of case initiation

P-3

## Office of Public Trust Liaison

Note: This office was established in December 2022 and the Contact Center was transferred to this new office from Attorney Regulation & Consumer Resources at that time.

Less than 35% of Contact Center calls transferred out

PTL-1A

Less than 25% of calls abandoned

PTL-1B

Average call wait time is less than 7 minutes

PTL-1C

## Office of Regulation

Fulfill 95% of requests for certificates of standing within five days of receipt

A total of 10,168 requests were received in 2022. The metric was not met in Q1 2022 because the office received a significantly higher number of requests than in other quarters and had to manage this increased volume at the same time as high transactions related to the annual billing and compliance cycle.

# State Bar Court

## Monthly caseload clearance rate

SBC-1

## State Bar Court (continued)

Hearing Department: 90% of cases to be processed within case type timeline

SBC-2A

The Hearing Department closed 371 cases in 2022. Factors that contributed to case processing delays include the following:

- Good cause continuances to serve due process as requested by the parties;
- Judicial reassignments;
- Defaults and subsequent motions for reconsideration and interlocutory review;
- Case processing errors;
- Supreme Court remands;
- Rejected stipulations and orders to amend the filings; and
- Disposition held pending the disposition of other matters.

## State Bar Court (continued)

Hearing Department: 100% of cases to be processed within 150% of case type timeline

SBC-2B

Factors that contributed to case processing delays include the following:

- Good cause continuances to serve due process as requested by the parties;
- Judicial reassignments;
- Defaults and subsequent motions for reconsideration and review; and
- Supreme Court remands.

## State Bar Court (continued)

Review Department: 90% of cases to be processed within case type timeline

SBC-2C

Note: No cases reached final outcome in January, February, July, and November 2022.

The Review Department closed 18 cases in 2022. Staff reviewed the one case that resulted in the performance target not being met in August 2022 and determined the case processing delay was due to the multiple requests for additional time to comply with rules and orders to afford due process as requested by party and multiple requests for reviews that were filed.

## State Bar Court (continued)

Note: No cases reached final outcome in January, February, July, and November 2022.

Staff reviewed the one case that resulted in the performance target not being met in August 2022 and determined the case processing delay was due to the multiple requests for additional time to comply with rules and orders to afford due process as requested by party and multiple requests for reviews that were filed.

## State Bar Court (continued)

Effectuations: 100% of cases to be processed within timeline

SBC-2E

Note: No cases reached final outcome in December 2022.

Percent of petitions granted

SBC-3A

Note: 18 petitions were disposed in 2022, and one was granted.

## Proposed 2023 Case Processing Metrics

**Table 1. Proposed Case Processing Metrics**

No.	Responsible Office	Proposed Metric	Notes
1	OCTC	Decrease the percentage of cases in backlog status	Updated backlog metric (aligned with Annual Discipline Report (ADR) reporting); backlog status is defined as 180 days for non-complex cases and 365 days for complex cases
2	OCTC	Track percent of disciplined cases resolved with non-public discipline	New metric
3	OCTC	Track number of attorneys who have 15+ prior complaints and discipline outcomes for those attorneys	New metric
4	OCTC	The external random auditor recommends less than 4.3 percent of cases for reopening	Updated metric. The metric will be based on what the percent of cases the auditor recommends rather than the percent of cases OCTC decides to reopen
5	OCTC	The California Supreme Court will deny 99% of Walker Petitions.	Updated metric; the target was previously expressed as “1 percent of Walker Petitions will be granted”; same metric, presented differently
6	OCTC	Less than two percent of Complaint Review Unit dispositions result in reopens for reasons other than new evidence	Carry-over metric
7	SDTC	Decrease average case disposition time for 2201 cases	New metric. 2201 matters not previously reported on in metrics reports
8	SDTC	Decrease case disposition time for the 90th percentile of 2201 cases	New metric. 2201 matters not previously reported on in metrics reports
9	SDTC	90 percent of 2201 cases will be processed within 180 days for non-complex cases, and 365 days for complex cases measuring from case referral date	New metric. This metric will be measured starting from the date the case was referred to the 2201 program
10	State Bar Court	Track the time that cases spend in the Early Neutral Evaluation Conference (ENEC) process	New metric. Time will be measured from the date of the first ENEC meeting to the date of the last ENEC meeting

No.	Responsible Office	Proposed Metric	Notes
11	State Bar Court	Decrease average case disposition time for Original and Criminal Conviction cases	New metric. Case disposition time will be calculated from filing of Notice of Discipline Charges to final case disposition
12	State Bar Court	90 percent of Original and Criminal Conviction cases are processed within case type timelines standards	Updated metric
13	Office of General Counsel	Track the Complaint Review Unit (CRU)'s case clearance rate	New metric. CRU matters not reported on previously other than in relation to OCTC cases
14	Office of General Counsel	Track case processing time for CRU cases	New metric. CRU matters not reported on previously other than in relation to OCTC cases
15	The State Bar	Increase the percentage of respondents that retain representation	Carry-over system-wide metric
16	The State Bar	Track recidivism rates	Carry-over system-wide metric (Recidivism is tracked as the percentage of attorneys with new complaints investigated or disciplined within 1 and 3 years after disposition)
17	The State Bar	Track the satisfaction rate of complaining witnesses in procedure fairness surveys	Carry-over system-wide metric

## Proposed 2023 Operational Metrics

**Table 1. Proposed Operational Metrics**

No.	Responsible Office	Proposed Metric	Notes
1	Regulation	Issue 95 percent of certificates of standing within five business days from the request received date	Updated metric
2	Regulation	Respond to 90 percent of email inbox inquiries within two business days of receipt	New metric
3	Regulation	99 percent of active licensees will be in compliance with license fee obligations by June 30	New metric
4	Regulation	Assign 90 percent of new licensees bar numbers within 15 business days of the date oath cards are signed	New metric
5	Regulation	95 percent of licensees comply with CTAPP reporting requirements by June 30	New metric
6	Regulation	Track the number of attorneys flagged for CTAPP compliance and summarize the time taken to follow up with or reach out to attorneys flagged for compliance issues	New metric
7	Client Security Fund	Resolve 90 percent of Client Security Fund cases within 365 days of the jurisdiction date	Updated metric
8	Client Security Fund	Project the number of Client Security Fund cases to be resolved at the beginning of the year and track the number of resolved cases	Updated metric
