Subject: Proposed Revisions to the Rules of Procedure for Fee Arbitrations and Enforcement of Awards by the State Bar of California

Since I find most arbitrations appear to emerge from contracts of adhesion,(more or less), I disapprove of the Bar gleaning payments therefrom. Therefore, I am against the cap being raised on this basis.

I know this is not exactly on subject, but I am no fan of arbitration, cost savings or no, because it interferes with stare decisis and is generally forced upon consumers who unwittingly give up their rights.
