SUBJECT: **Committees and Commissions -Year End Reports for 2009; Assessment Process**

Attached are the 2009 year end reports for some of the committees and commissions within the oversight function of the Board Committee on Legal Services, Pro Bono & Equal Access (LSC). The reports from the remaining committees will be submitted at your May board committee meeting.

Each year, staff liaisons submit a report summarizing their committees' current year accomplishments and activities. The reports are distributed to the pertinent oversight committees that should conduct an assessment of the advisory committees' current year activities.

Staff and/or advisory committee representatives are available to answer questions regarding the current year summaries.

In conducting your assessment, LSC members should consider: what specific measurable program accomplishments were achieved; how program success was measured; what type of information was provided; and whether any additional information is needed. In addition, the Committee should consider whether any changes should be made to the direction and desired outcomes related to the program.
